Registrar's Message

The University has established “Internship Cell” under the supervision of the able teaching staff of the University and under the guidance of the Authorities and Officers of the University, to devise a mechanism through which Students of the University are trained in order make them qualified and able professionals in the field of law. The efforts of the University in general and the Cell in particular are very apparent from the fact that the University has made “Internship” a compulsory affair for the Students studying in B.A.,LL.B. (Hons.) course. Moreover, the University has been encouraging the Students to pursue Internships for around Four Months a Year, by adjusting all other academic and administrative affairs. This innovative practice is one of its kind and is aimed at providing them with good employment opportunities in the industry. Multiple workshops and training sessions have been conducted to train the students to help them identify their potential with regards to their future employment opportunities.

Now, the students of Second Batch of the University who are a part of the BALLB (Hons.) course will pass out in the Year 2023 after having put in their hard-work in academics, research and internship. The Recruitment and Placement Cell of the University is leaving no stone unturned with respect to providing them with the best opportunities in the industry. I am sure the hard-work that the students have put in throughout their course and the milestones that they have achieved will certainly provide them with an appropriate opportunity in the industry.

In the light of the things mentioned above, I wish the Students of the Second Batch i.e. Batch 2018- 2023 and the Placement and Recruitment Cell the best in their endeavours in getting appropriate employment and placement opportunities. I also hope and am sure that the prospective recruiters in the industry will be more than happy to hire the deserving and competent Students of the University and will extend its proposal to the University in furtherance of the same. I congratulate the Recruitment Cell, the Faculty and the Students in-charge of the Cell and bestow my best wishes and also extend my cooperation to the Recruitment Cell and the Students of the University in order to generate enormous employment opportunities for the Students of the University.
